ESSENTIAL SERIES

DUAL SLIDING DOOR

An Advanced Door for a Variety of Applications

Feature Rich Door with a Low Profile

The Essential Series Dual Sliding Door boasts a sleek, feature-rich, low profile design. The doors slide on an easy-glide track system, allowing for smooth operation and the self-aligning doors require no adjustment. The easy-glide track system and self-closing cartridge are integrated into the doors so that they are tucked away from view when the doors are closed or open. The self-closing cartridge converts from manual to self-closing in minutes and be adjusted for speed. Implement the Essential Series Dual Sliding Door when space is an issue in your data center.

KEY FEATURES

- Standard Sizes
- Smooth Actuation
- Rigid Design
- Self Supporting
